Adobe: Photoshop, Illustrator, InDesign

EXPERIENCE

Associate Software Developer, athenahealth

July 2013 – present
Watertown, MA

I worked as a full-stack web developer on athenaClinicals, a cloud-based electronic health record system.
- Implemented front-end user workflows in JavaScript and Backbone
- Structured and styled the user interface with mustache and LESS
- Created supporting back end architecture in Perl
- Made simple SQL queries and database modifications

Teaching Assistant, Carnegie Mellon

January – May 2013
Pittsburgh, PA

I was a Teaching Assistant for "Cross Platform Mobile Web Apps," taught by Professor Kosbie. I held office hours during which the students could consult me for user interface and design advice for their projects.
- Gave students guidance on user interface design
- Graded course projects for design and technical criteria

Research Programmer, Carnegie Mellon

May – August 2012
Pittsburgh, PA

I worked as a Research Programmer for Professor Gunawardena creating the mobile site for Classroom Salon, www.classroomsalon.org/mobile.
- Designed and implemented a user interface compatible with mobile using JavaScript, jQuery, HTML and CSS
- Implemented a voting system used for filtering important comments
